Piggs!

Piggs! is the new iOS arcade jumping game. Join Happy Pigg and the team in their jumping adventures. Collect apples along the way and unlock new Piggs. If you're lucky you might even get a few bonus rounds - you'll think it's raining apples, hallelujah!

The Piggs! friendly color scheme and simple interface allows you to get straight into the action. Using your, finger, tap and hold, drag back, aim and release - let the Piggs fly, or at least jump with style!

Once you begin playing with Piggs!, you'll realise how surprisingly fun it can be!

Piggs! Features

Plethora of Piggs

Collect 11 piggs in your jumping adventures. You thought humans had character, wait until you get one of the Piggs! You're new Piggs will come fed and watered in a Costume Box (air holes included).

Tricky Towers

In theory it's as easy as jumping from one tower to tower, in practice, it's a totally different game! Well actually, it is exactly jumping from one tower to another, but it's much more difficult than it sounds.

Bonus Stages

Whilst you can collect a lot of apples from just jumping, you'll be able to collect a whole load more by playing one of the bonus stages!

One-time Continue

Imagine this: You're on track to getting a new high score, you're finger sticks on the screen; overshooting the next tower you and Happy Pigg squeal in unison as he flies out of sight. Fear not, he hasn't oinked just yet - use a one-time only continue and you'll be back jumping within, micro, seconds.

Lifelines

Through-out your jumping session you will be provided with 3 lifelines which become available at set tower intervals. The first lifeline moves the two towers closer together. The second lifetime matches the two towers in height. And finally the third teleports your pigg directly to the top of next tower.

FAQs
